Salt Lake City, Utah 84180-1203

Dear Anthony,

I appreciate the opportunity to get together with you last Tuesday and review our operations as well as others in the Park Valley area.

Find enclosed a copy of my letter to Dan Washington, B.L.M. regarding the land use application and permit etc. I look forward to working with you and developing business that makes money for the state as well as ourselves.

Sincerely,

Gary Mullard
President

Dear Dan,

I feel that our meeting on Tuesday with Anthony Gallegos of Utah Dept. of Lands and Bryce Tripp of Utah Geological Survey was productive and informative. Being able to view and discuss Utah's Building Stone Co.'s property in the Rose Bud area, our Turquoise Stone Quarry at Park Valley and Utah Building Stone's and the livestock people's operations in Fischer Creek Canyon will establish a better base for future decisions.

S/003/012

S/003/020

Again, I emphasized Northern Stone Supply's demonstrated commitment to improving the land wherever we operate, our major financial commitment for the future and our willingness to over extend ourselves to cooperate and find common ground with the B.L.M., livestock industry, and other neighbors.

I emphasized the importance of meetings, dialogue, give and take solutions on a common sense level, rather than getting involved in long and lengthy litigation over nit picking issues. I expressed my confidence in being able to work out the problems without creating a situation that would end up in the courts.

Find enclosed the license agreement you requested for our state leased property in the Rose Bud area. If you have any questions, please give me a call.

Sincerely,

Gary Mullard

P.S. Relative to the March 31, 1993 Decisions Mining Plan of Operations we discussed the legality of a "written request for a stay" per the last sentence of the letter. This is really confusing to me and I think is only appropriate that you send legal interpretation of the "stay" rules vs. appeal so that we can understand the issue and make the right choice. Thanks.
